Materials of Construction Logs, Shingle roof.

Additional Data Built originally by John Gann in the early days of Texas' history. Later it came into the possession of the father of the present owner. The house has been moved some 200 yards from its original site, but the logs were replaced in their original position so the house has not been changed, except for modern conveniences from its original design. The logs are rather more carefully hewn than is usually found. In plan it follows the usual breezeway type with two rooms, one on each side of the breezeway, the projecting ell and the covered porch.
